Looking Into Rest Home Care

Looking at coming into a Rest Home can be quite a traumatic time for you and your family. Often it is not something that we think we need or want but rather something that has to be done for our continued safety and comfort. It is our aim to try and make this time of change and transition as comfortable and pleasant as possible. Our staff are here to answer any questions that you may have and to assist you with anything that you are having problems with.

There are several different options available to you when you are looking into Rest Home, Dementia & Continuing Care. It is important that you choose the option that best suits your lifestyle and requirements.

What We Have To Offer

Stillwater Gardens Rest Home & Continuing Care Unit offers Rest Home (Stage II), Stage III (Dementia) and Continuing (Hospital) Care. We are a 24-hour facility with full time staff and support. We pride ourselves on the High Standard of Care that we provide for our Residents and their families. This continuing Standard is monitored through our Quality Assurance System.

Stillwater Gardens customises care in each area of service to ensure the specific needs of each client group are consistently met. The Rest Home and Hospital staff are supervised by a Registered Nurse who has experience in meeting the special needs of the elderly.

In our Dementia unit, which is a secure unit to ensure the safety of these residents, staff have specialised training in the care of the elderly with Dementia. All staff working in the Dementia unit are required to complete the four unit standards relating to Dementia care and pride themselves on providing a safe, homely and compassionate environment. It is important in ensuring safety, that residents not leave the Dementia unit without appropriate supervision therefore when taking your family member or friend on an outing, please ensure staff are informed in advance. *(For additional information on the Dementia unit please see reception for the Dementia Information Pack)*

The Stillwater Gardens Management Team is made up of our Company Directors, Manager, and Company Secretary. They bring to Stillwater Gardens experience in Dementia, Nursing, and Business Management. The Duty Manager is available to answer any queries that you may have and also to oversee the smooth running of Stillwater Gardens 24 hours a day.

Our Registered Nurses are available to answer any concerns that you may have and also to advocate on your behalf with other Health Professionals to ensure that you receive the optimum medical care that we can provide. They have experience in Geriatric Care and we are confident in their ability to provide a high standard of care for you in your Quality of Life.

As part of our quality programme our Registered Nursing staff have weekly forums in which to review care provision to ensure opportunities for

continuous improvement are identified, implemented and evaluated for effectiveness. We welcome your comments in relation to your perception of all aspects of service provision and will actively seek this through regular consumer surveys.

We have a full time Diversional Therapist who works with our Residents individually and in-group activities. She is responsible for the organising and running of the daily programme. This programme includes newspaper reading, crafts, bingo, special outings and much more.

It is our aim that as you explore the option of moving into a Rest Home you will find viewing Stillwater Gardens a pleasant experience and one that you would like to become more involved with.

Referral Agencies

We work on a regular basis with three main referral agencies in Nelson, these are the local GPs, the A,T & R Unit (Nelson Marlborough District Health Board) and Support Works (local NASC service). As part of establishing your care requirements and eligibility we may need to speak with the appropriate agency. Where possible, we endeavour to discuss this with all prospective clients before making contact.

The Process of Admission

(Associated Form: Application for Care)

(Associated form: Doctor's Assessment)

It is our policy that where possible, all prospective clients are encouraged to meet with a member of the Management Team and be shown around the Rest Home. This enables you to become a little more familiar with our surroundings and have any questions or queries answered before you make a final decision.

After you have made the decision to be admitted into our Rest Home we require you to get your doctor to fill in an assessment form and also to arrange an Assessment with Support Works if you have not already done so. This is very important as it allows us to prepare before you come in and make sure that the type of care we are offering you is appropriate to your needs. We will also give you some forms to fill out and bring to your Admission Interview.

This is also the time to meet with a representative from the Superannuitants Department at Work & Income NZ to establish whether you qualify for a Residential Care Subsidy or if you will have to meet the financial requirements yourself. We have brochures on Residential Care Subsidies available for you to look at. Please ask one of the Management Team for a copy.

We encourage you to bring in some of your personal effects. We supply each room with a bed, bedside cabinet and a chest of drawers. You are welcome to bring your own furniture if you wish. We believe that it is important for our residents to have items of importance to them in their room, i.e. pictures and photos, special ornaments etc.

On the day of Admission a mutually convenient time will be made between you and the Rest Home, for you to come in. In most circumstances you will meet with the Registered Nurse. They will conduct an Admission Interview with you, at which time they will ask you questions relating to the type of care and assistance that you require. Once the interview is complete you are free to get settled in. You are welcome to bring a family member or friend to the Admission Interview and to help you get settled in. Otherwise one of our staff can help you at this time.

After your admission we like you to keep us informed as to your changing needs and if there is anything else we can do to make your stay more pleasant.

We are happy to put you in touch with an appropriate counselling service or provide you with any educative or informative material regarding sexual health advice.

We also organise a number of outings outside of the facility and ask you to co-operate in the wearing of seatbelts or any other safety restraint/device whilst travelling.

Trust Account

We operate a separate Trust account for our residents. The purpose of this is to pay for incidental items which are not included as part of the Rest Home fees. Please feel free to discuss any queries you have regarding this with the Office Administrator.

We encourage residents not to carry large amounts of cash. A small amount of money is held on site and can be debited against your petty cash account should the need arise. Please speak to the office staff regarding your individual requirements.

There are no restrictions on visiting hours. We encourage you to have visitors as you would normally do in your own home.
